

## Drug Discovery - Senior Medicinal Chemist / Senior Manager

At Addex we aspire to be a world leader in allosteric modulator drug discovery and we are looking for a Senior Medicinal Chemist / Senior Manager to join our team to help us achieve this.

### Job description

In this senior role, you will lead scientific programs and initiatives in the allosteric modulation field of research with direct management responsibilities.

- Independently design, plan, execute, and interpret complex activities to identify pharmaceutical candidates.
- Formulate innovative molecular design ideas through property- and structure-based drug design that impact the advancement of drug discovery programs.
- Collaborate proficiently with internal and external chemists to overcome synthetic challenges and expedite the invention of novel molecules.
- Productively interact with cross-functional scientists and communicate progress against goals in a multi-disciplinary setting: chemistry, biology, pharmacology and molecular modeling.
- Initiate and participate in collaborations with external partners.

### Requirements

- You are a highly motivated and independent scientist with a proven track record in the pharmaceutical or biotech industry
- You have a PhD in organic / medicinal chemistry, post-doctoral experience with at least 10 years' experience in industry with demonstrated success in solving medicinal chemistry problems and delivery of clinical candidates.
- Proven experience in external collaboration and management of CROs.
- Cross functional scientific knowledge.

Experience in the CNS field would be a plus. Addex is seeking individuals having an excellent understanding of modern methodologies both in synthetic chemistry and in drug design with excellent communication skills, who are creative, enthusiastic and able to work effectively in an international discovery team environment. Swiss or eligible for Swiss work permit.

Addex Pharma S.A. provides an exciting environment and a challenging place to work where you can directly see your contribution make a difference. We offer an attractive remuneration package based on experience.

We look forward to receiving your application. Please, send CV, references and a cover letter (preferably in English) to:
